

# Wellness & Emotional Support for youth online

## Over 3,500 Ontario Youth Serviced

CHARITABLE REGISTRATION #: 852140441RR001

### About Us

**Wellness and Emotional Support (WES) for Youth Online** was founded in 2012 by Jamie and Yolanda Cameron after losing their son Wes, to suicide.

Understanding the importance of providing timely and accessible mental health services for youth, the Camerons decided to address this gap by creating an innovative technological platform that allows youth to access professional counselling virtually.

### Our Service

WES for Youth Online provides youth with an ongoing, virtual counselling service, giving youth an opportunity to develop a lasting relationship with their counsellor: **free virtual counselling for Ontario youth ages 13 to 24; service in a timely manner to youth by self-referral; a one-on-one connection where youth can receive support via our secure and confidential platform**
